deposited by those whom they bribe.

There are many ways of buying or influencing rotes, but the most common practices in this city are to "conciliate" contractors, boardinghouse keepers, foremen of gangs of laborers keepers of porter-houses, and the class of petty clans known as "strikers." The latter class are the most pertinaceous and barefaced in their demands. They do not care a particle about the issues or principles involved in an election contest. They are upon "the stuff"-"the stuff" is their ereed, and they go for the party candidate who supplies it most liberally. It is not extravagant to ray that, upon an average, not less than \$1.000 a Ward, beyond legitimale expenses, is spent by the rival parties in

this dty at every strongly contested election.

All parties are equally guilty in the matter, and

it is the rivalry to obtain votes that festers this system of corruption.
We have laws against bribery and the making of bots upon election results, but they are, prac tically, dead letters. The reason is, that men of all parties ergage in the illegal business of betting and bribing, and for mutual safety they agree to keep silent about their offences. Even men who stand high in the community, and who loudly protest their desire for good government. have subscribed money for election purposes, krowing full well that it was to be used in an illegal manner. Money has been given to those who may be called "sporting characters," or "n en about town," to make bets upon particular candidates so as to secure the zealous efforts

of these men and their friends in behalf of these

candidates. Unless these practices are checked, they will result in the utter demoralizing of a large class of our voters. We see, already, unmistakeable evidences of this demoralization; and it is a notorious fact that money has carried not only nominations, but elections. Our people, if they desire good government, should sternly set their faces again et candidates for office who rely upon their purses, and not upon their fitness, for an election, Bobery at English elections was for many years carried to such an extent that the Parliament was at last obliged to enact severe laws against it, and during this year a number of members, returned as elected, have been deprived of their seats, because that "treating of voters" and other "corrupt practices" were proved against them or their agents. If a few examples were made, in this country, of those who resort to "corrupt practices" at elections, they would produce a most salutary effect.

The Brownwille Troubles.

For weeks past we have had a succession of reports regarding the acts of violence and intimdation committed at Brownsville and its neighberhood, by a leader of banditti, named Corit-NAS. The greatest alarm seems to exist along the Texan frontier, and the Federal Government has been appealed to by citizens residing in that region, to send a military force for their protection. We are glad that the Government has re sponded to this appeal, but we are surprised that the Governor of Texas has not taken prompt and energetic measure: to exterminate Corrinas and his band.

Surely, it is possible to raise in Texas a sufficient militia or volunteer force to overcome the bandits and protect the people of Brownsville Where are "the Rangers" that they have not, before this time, started upon the trail of the des peradoes who defy all law and all legitimate authority? If a filibuster expedition were prohundreds of Texans would be ready to volunteer their services. Why, then, has not Texas made some effort to defend the integrity of her soil, and protect her citizens against a lawless band of Mexicans and renegade Americans? We hope that our next advices will show that the Texan authorities have taken steps to maintain law and order upon the frontier.

If they do not, we will conclude that there is a good deal of humbug in the alleged outrages of the Mexican banditti; and that they are chiefly got up by parties who wish to lay the basis for future claims upon the Government for damages. Indeed, if such a state of affairs exists upon the frontier as is represented by every mail from Texas, the anathy and timidity of the Texan people is entirely incomprehensible. We do not doubt that there is a party of lawless men who commit depredations, but we suspect that they are in collesion with many of these who make the loudest outery about their proceedings.

The impunity, bowever, which Corrisas and his band have enjoyed for mouths, shows the disordered and disorganized state of society on both sides of the blo Grande. There is now no authority in Northern Mexico, bonest or strong enough to put down the reckless robber gangs who organize there against the peaceable inhabitants. Cur Government, consequently, must interpose, and give security to life and property upon our Texas frontier, even if it be necessary to follow the bandits into Mexican territory. CORTINAS and his followers should be extern lasted, and we trust that the authorities at Washington will adopt decisive measures to this end.

ELWOOD WALTER, Esq., of this city, has received the following intelligence from China:

Hose Kons, September 14.

We have at the present in our harbor, several American ships in a disabled state. The ship Whirlwhold, from San Francisco, arrived on the 2d instant, much damaged. The ship James Browne, of Philascleiphia, arrived on the 6th inst., leaking, having gust with yery heavy weather, and must go in dock for repairs. Has is from San Francisco for Molder Island.

And.
The ship Ny mph having nearly completed her repeirs, was damaged again in her bow last week, during a violent storm, which caused many of the ships
to ding their anchors, and get foult all austained more
or less damage. She will be again ready for sea in
a few days. For the last three weeks we have had
a succession of heavy ga'et and Typhonus; and daily
ne have arrivals of ships in distress, or hear of their
total loss; of these are 'yet no American vessels.
Even English and French vessels are reported as
toundessed.

. Tun ship See Nymph, 1.235 tons register is now on the large sectional dock for repairs. She will be stripped, recaulked, and newly coppored.

The North Star Heard From

She Rane Ashore on the French Keys.

ALL HANDS SAFE.

ANCHORS AND COAL LOST-VESSEL NOT DAMAGED.

We are enabled to lay before our readers this morning the gratifying intelligence of the safety of the passengers and crew of the steamer North Star, and thus allay the anxiety which has for several days past been manifested in regard to them. It will be seen that no very serious accident had befallen them, and probably before this they have all been safely landed at Aspinwall. The following is the dispatch received here yesterday :

CHARLESTON, November 17.

A letter to the Charleston Courier, dated Nassau, N. P. November 2th, states that the steamer North Star, from New York, for Aspinwall, got ashore about the 25th of October, on French Keys, and remained on the Keys six or seven days; but finally was got off without extra assistance by throwing overboard some coal, and with the loss of anchors. She proceeded on her voyage to Aspinwall on the 2d instant.

The State Election.

The County Canvassers throughout the State have not yet concluded their labors, and consequently from some of the counties we have yet no official returns. Enough is, however, known to render it certain that Jones, Democrat, is elected Secretary of State, by a mai-ty of between a thousand and fifteen hu, in I votes. RICHMOND, Democrat, for State Treasuler, was 2170 votes ahead at last accounts. Skinger, Democrat, for Canal Commissioner, 248 ahead, and FORREST, Republican, for State Prison Inspector, had 131 majority. If these figures are not varied by the returns yet to come in, it would seem that the "Slate," not only of the Democrats and Republicans, but that of the Balance of Power" party, has been broken.

BY TELEGRAPH. Albany, 9 P. M.—Skinnen is 183 shead. A report not official says that Richmond county makes Cazara's vote 200 better than Leavenworn's, and Cataraugus makes him 377 better. If this report is correct, Charis stands at present 324 shead. Eric county raises Former's majority to 176.

The Harper's Perry Affair THE first reports of the Harper's Ferry affair had reached England before the departure of the last mails, and the London Times made it the subject of editorial comment. It condemns Brown

movement as feolish and wicked, and adds:

We will not affect to indulge the hope that the common wealths of Virginia and Maryland will be moved by this event to take into consideration the estinction of slavery. Futting aside the fact that such outbreaks generally skeel the heart, instead of softening it, and that the yoke is likely to be pressed down more heavily than ever on Megronecks, there are the great inducements of gain and fear to support the system. Cotton is produced now in vaster quantities than ever, and the value of Negro labor is continually rising. The price of Negroes is nearly double what it was some years back, for the increase by breeding does not keep pace with the demand for the newly settled country. As long as Virginia supplies the dealers of the South with profit to kerself, so long will owners keep a firm grasp on their human property. movement as foolish and wicked, and adds :

A letter from Vienna says in regard to the recent meeting of the Emperor of Russia and the

cent meeting of the Emperor of Russia and the Prince Regent of Prussia:—

It is not probable that an offensive and defensive tresty of aliance was concluded between Russia and Prussia at Bruslau, but it is certain that a perfect understanding has been established between the Emperor Alexapper and the Prince Regent of Prussia. Their object is to maintain the peace of Europe, or rather to avoid getting involved in a quarrel with any of the other great Powers. Both Russia and Prussia will advocate the cause of the lawful sovereigns of the Italian Duchies, but they will protest against any active intervention in their behalf. Lord John Russian's speech at Aberdeen produced a bad impression both at St. Fetersburgh and Berlin, as neither the Emperor Alexaspals nor the Prince Regent are great admires of the dectrine that the people have a right to depose their rulers and elect new once.

Troubles in Canada.

Troubles in Canada.

The Montreal and Toronto papers are filled with sketches of the speeches made at what is styled "The Upper Canada Convention," held in Toronto last week. There is an evident determination to effect a split among the Provinces, and an apparently strong lit-feeling between Upper and Lower Canadians has arisen, which will not crase until such an end is effected. There were 600 delegates present at the convention, and after several long speeches resolutions were unanimously passed declaring the existing union between Upper and Lower Canada to have resulted in a heavy public debt and in burdensome taxation; also declaring for the dissolution of the union between Upper and Lower Canada, with local government for each section, and a central power for deating with matters affecting both sections. The speeches were carnest and, judging from the vote, effective. Mr. Brown detailed the evils of the expenditures. He said that in 1854, when the present government came into power, the debt was \$29,000,000; and when Parliament broke up last Spring, the debt of the Province was \$58,500,000. In less than four years it was thus seen, the public debt was doubled! To spend such a sum within the space of four years, he detominated an act of madness, unparalleled by any government that ever existed. Among the moneys so spent the Grand Trunk B. R. has received sixteen milicus. If the road had been built inland, and not on the shores, or on the lake, Mr. Brown thought it might have been a greater benefit to the Province; but as it was, no reasonable compensation for the money was obgreater benefit to the Province; but as it was, no reasonable compensation for the money was ob-tained. He then referred to the tariff, and feared

reasonable compensation for the money was obtained. He then referred to the tariff, and feared the public debt of the country would prevent the carrying out of a free trade policy. The tariff had increased, of course, nearly in the same ratio as the debt; it had been raised to 22½ per cent. The expense of collection of the revenue was enormove, having been increased during the past few years two and a half fold. He feared the result of the high protective tariff upon the Recipriccity Treaty with the United States. Looking at the results of the legislation of the last five years, he deemed it extraordinary that the people had stood it so long.

The speaker distinctly stated that the only way to remedy such demoralization was a separation of the two provinces, so far as local government was concerned, but he favored a connection for general legislation. He thought, too, they should have a written Constitution, whether by a convention of the people, or by Parliament framing a bill and sending it to the people, afterwards to be ratified by the Home Government. Then with regard to the characters of the local Legislatures, a difference of opinion might likely arise. Some would say, "responsible Government might be carried out if we were separated from Lower Canada." He was free to think it would work better than under the Union; but he doubted if it would be expedient, under the new Constitution, te adopt the principle—whether it would not be better to have men who were simply heads of departments, without seats in that Legislature. better to have men who were simply heads of departments, without seats in the Legislature. But with regard to the general Government, many would be in favor of carrying out the same many would be in law of carrying out the same sort of system as in the local Government. The main point was to give it as little to do as pos-sible, and that clearly defined, it would settle such matters as the collection of revenue, the management of the canals, and matters of that kind. In this way they would have all the advantages of dissolution, with the advantages of union.

The Bonner Forgery.

can gives the following details of the Bonner forgery:

"I suppose you have read in the newspapers of the arrest of Leadh and Bushor, charged with the forgery on Mr. Bonsen, of the Ledger. But it has not been told in any newspapers just how that forgery came about. Not long ago a woman came to the Ledger office, and said sho without to subscribe for ten copies of the Ledger, for a friend, Miss—of North Orange, N. J., who had not time to call, and had, therefore, commissioned her to attend to the matter. In payment she offered a fifty dollar bank bill, and asked for a bank check for "change," instead of money. By means of the check she obtained Mr. Bonsen's signature, said the name of the Bank with which he had an account, and through it, the forgery to the amount of \$3.500 was committed. On its discovery, the woman who asked for the "check" was remembered, but on sending to North Orange, no Miss—was found, though the postage on the avalanche of Ledgers which had been sure to the service of a month. The woman has also been arrested; she was belping her husband with a devotion worthy of a better cause. ARRONAUT LOWE AND THE MAMMOTH BAL-LOON.—The inflation of the large balloon, "City of New York," at the Crystal Palace grounds, was yesterday afternoon re-commenced, for the last time. The process of inflation will be gradually proceeded with until Saturday morning, when the quantity of gas desired will be enforced into the gas envelope by means of a powerful pump, which has been placed n the immense pipe that is to supply the balloon. Professor Lowz has expressed his intention tarting on his proposed transatlantic trip on Satur day afternoon, unless the weather is exceedingly un propitious. The arrangements are nearly perfected, and we learn that the Professor has evinced considcrable displeasure at the unavoidable delay occa. siened. The men who are financially interested this enterprise are Messrs. GILBERT, WARREN LE-LAND, RESIAMIN and HENRY WOOD, and others whose names we could not learn.

DR. BETHUNE'S NEW CHURCH.-Rev. Mr. VAN Nast, on Sunday morning last, announced to the congregation of the Dutch Church in West Twenty-first street the new arrangement with Roy. Dr. SETHUNE. The two pastors are to share in the labors of the pulpit and parish jointly, commencing next Sabbath. It was originally suggested by Mr. Van NEAT to the people, and they cordially acceded. The ultimate object in view is the establishment of a new Dutch Church beyond Murray Hill. This has been in contemplation some time, this congregation not hav-ing advanced in a ratio corresponding with that of others in the upper part of the city. The parish over which Mr. Van NEST presides is not large, havng only about two hundred members, but its church edifice is nest and well situated, and is nearly free rom debt.

TARMANT HALL MUNICIPAL CONVENIEN. --The Convention met last evening at Tamman, Hall, long before the hour for the sourcening of the Convention, the bar and adjoining rooms, aidewalk and even to the centre of the street, was crowded with interested outsiders, not entirely compared of

Democrats of the Tammany order, but made up, partly of Mozartitos, Americans and Republicans.

I. V. Fowners called the Convention to order, and orginated Sheriff John Kenty as chairman. Hon, JOHN WHEELER, WM. CALDWELL and CHAS. K. SMITH, were appointed as secretaries. The first motion of importance arrived at, was the presentation of two sets of men who claimed seats as delegates, from the 19th ward. The contestants were as fol lows:—Alderman McSpelch, John Eagan, R C. Downing, Thos. Person and Bryan McCantll, as one set; and Anson Herence, Dr. Ws. W. Sanger, WM. C. CONNEL JOHN DOWNING and CHARLES H.

Lyons, as the other.

Lyons as the other.

Judge Brannan moved that two from each set of entestants be admitted, the four thus selected t choose a fifth. This motion was carried, and, on motion of Judge Constant, a committee of five was appointed to notify the contentants of the action of the Convention. Judge Convented, watted on the contestant, who frequend to eater the Convention on those terms, expressing their wish that one or the other entire delegation be admitted, and that by a vote of the Convention. The Convention being admitted. vised of the decision, by a vote of 56 to 49 admitted the Harrick delegation.

Lit was then resolved that the Convention vote viva

voce for all candidates, and a committee of one, to be selected by each Ward delegation, to report names of candidates for Mayor and Corporation Counsel, at the next meeting, was ordered, as follows:
At large, John Kelly: 1st, Thor. Byrnes: 2d, Alfred

Chancellor; Sd. Dr, J. C. Tucker; 4th, Geo. Purser; 5th, J. Y. Savage; 6th, John Clancy; 7th, Isalah Rynders; 8th, R. J. Compton, 9th, John Richardson; 10th, Aug. Purdy; 11th, Bernard Kelly: 12th, B. Smith; 13th, Charles Smith; 14th, Daniel Klasmer; 15th, I. V. Fowler; 16th, Wm. Caldwell; 17th, Thomas C. Fields; 18th, Edward Cooper; 19th, Anson Herrick; 20th, Peter B. Sweeney; 21st, R. B. Connolly; 22d. Peter Masterson. The Convention then adjourned to meet on Saturday next at 3 o'clock P. M.

The Republican primaries were held throughout the different wards in this city, last evening, and with the exception of a slight scrimmage in the 16th ward, everything passed off quietly. It is thought the delegations elected will cause the Conventions to nominate, when convened, SIMBON DRAPER for Mayor, SOLOMON B. HULL for Corporation Counsel, and JAMES M. TUTTLE for Alms House Governor.

The Republicans in this city are considerably agitated as to who shall be the recipients of their suf frages at the coming municipal election. Among the candidates for the Mayoralty mentioned, are Sizeous DEAPER, already nominated by the recent People's Convention, Hon. George Oppure, Mr. Supervisor BTEWART, JOHN A. C. GRAY, (Central Park Commis sioner.) who is reported to have the influence of Mr. Atherrson, the Republican candidate for County Sheriff last fall, and Alderman John Brady, whose friends are strenuously at work to secure his nomi nation.

For Corporation Counsel, the contest is warm, be tween JOLOMON L. HULL and F. DELAPIELD SMITH. the latter of whom, probably, stands the best

For Almshouse Governor, three candidates are named_D. D. T. MARSHALL, JAMES TUTTLE and WM. T. PINCKNEY, the present Governor.

The 17th ward Union Democratic Club, have nominsted CHARERS G. CORNELL for Alderman, in the

10th Aldermanic district. SOCIATY FOR THE RELIEF OF WIDOWS WITH SMALL CHILDREN .- The Society bearing the above title met yesterday afternoon, in the lecture room of Dr. Potts' church, corner University Place and Tenth street, to hear the report of the Sceretary and Treasurer. Ten ladies were present, and the meeting was called to order, by Mrs. L. PERKISS in the chair, and Miss GAMAGE, Scoretary, at 12 o'clock. After the reading of a portion of the Scriptures, the Secretary read her report. By it, we learn that a great degree of the misfertunes o widows and small children, in New York, is owing to the insufficient remuneration said widows receive for their labor. As proof of this, several instances, howing the low price paid for female labor, were quoted. One woman, who made children's leathe oots, could get but 31 cents per dozen pairs, and could make but & dozen pairs per diem. Another a maker of fine linen coats; received but 31 cents each, and could make one per day. Another woman got but 25 cents per pair for making heavy cloth pants. Another woman, at making children's same \$1 96 per week. Another, wh makes cotton shirts, gets sixpence each for making them, and manages to earn 75 cents per week And these women are expected to keep small children. The charities of the Society, during the approaching winter, would only be extended to those below 37th street. The number of widows essisted by the Society, during the past year, was 528, and they had 1.228 children, under 12 years of age. Total amount expended for relief, during the

year, \$5.718. The Treasurer's report sho wed a bal-ance in the treasury of \$212.02. The old officers were reinstated, and the meeting then adjourned. LECTURE AND CONCERT. - The combined; attraction of a lecture on "Americ an Social Life," by the author of the famous Titesmb Letters, and a Vocal and Instrumental Concert by "Father Kame's Old Folks," will be given this evening at the Cooper Institute. It is seldom that so many good things are

offered on one occasion. THE Everett House, which for the past five years has been under the management of Hawker D. CLAPP, has been purchased by L. L. BRITTON, of Stanwix Hall, Albany, who will take possesion on the first of December. Mr. Barrion has a thorough knowledge of hotel keeping, having been for twelve years in Stanwix Hall, and been twice compelled to enlarge his house to accommodate his increasing patronage.

POLICE Captain LEONARD, of the 26th Preenct, has instructed his men to look out for all vioators of a corporation ordinance, which provides that all owners of unlicensed vehicles shall have their nan-es painted on them in full, and not as it is customery now to have only their initials printed there on. Several men were arrested yesterday, and fined \$? and \$3 cach.

THE Board of County Canyassers continued their work of canvassing the votes of the city, yesterday, and there is some probability that they may complete their work to-day. As fast as the Beard get through with the full lists, they are handed over to the Registrars.

A MEETING of Auctioneers and second-hand dealers was called last evening to meet at MAHONET's Hotel, corner Beach and Hudson streets, for the pur pose of electing officers for their mutual protection celety. About twenty-five of the members were present, but in consequence of the absence of the chairman and some of the other officers, the meeting was postpened until Thursday evening next.

THE Polytechnic Club of the American Institute, met last evening to disguss the subject of paints and roofing. Several of the members, about thirty of whom were present, spoke on the subject and the utility of a number of varieties of preservation paints and materials for roofing were discussed.

About three hundred persons were congregated in Clinton Hall last evening, to hear the fourth lecture of the Mercantile Library course. It was delivered by E. P. WHIPPLE, Esq., on the subject of "Courage, and was quite successful.

Superior Court. Insurance Case.—Kimball & Andrews vs. The Hamilton Fire Insurance Company.—This was an action to recover of the defeedants the sum of \$2.000 on an insurance policy, from May, 1857, to May, 1858, made by the defendants on a certain engine, boiler made by the defendants on a certain engine, boile and machinery, in promises No. 273 Cherry street.—The defence is, that the plaintiffs were not partners in business as claimed in the complaint, when the policy was obtained; that they were not his owners of any insurable interest in the property, and that the insurance was obtained by misrepresentation; that they had, at all events, assigned any interest owned by them, before the fine, to the "Foundry Furnishing Company." Case called late in the day and still on Jury Disagree.—Lohn Statemens Disagree .- John Stademann vs. John Furpis.—This case was reported in The Sun of yes-terday. The jury disagreed, and were now dis-charged.

Vertict.—Henry Appel vs. James Hums.—This action was reported in The Sun of Wednesday. The matter was now decided, the jury finding for the plaintiff a verdict for \$900.

Sapteme Court Absconding Debtor.—William M. and C. C. Keller and others vs. E. C. Blox hom.—Tms was an action of attachment against an absconding debtor. It appeared that the defendant kepts ary goods store in Brooklyn. On Friday night law, it was alleged his store was well filled with goods, which were purchased on 30 days credit; but before the next morning the goods were gone, and the perturbance of the process of the which were purchased on 30 days credit; but before the next morning the goods were gone, and the per-son and family of the defendant were also missing. The disappearance created a little uncasiness among the creditors, and the consequence was the applica-tion for an attachment. The motion was granted, and a portion of the goods were subsequently found in a store in Catharine street in this city.

WILLIAMSBURGH.

The Surregate of Kings County has just decided in the matter of the will of the late Austin D. Moone, formerly a resident of Williamsburgh, and for many years connected with the Feek Slip Ferry, that he being at the time of his death dominited in the State of Florida, the widow must have one-third of the estate, as is allowed her by the laws of the State of Florida. This decision has been taken to the Surrema Court, on an arreal hy one of the executive of the surrema Court, on an arreal hy one of the executive of the surrema Court, on an arreal hy one of the executive of the ex Fiorida. This decision has been taken to the Supreme Court, on an appeal by one of the executors and guardian for the infant children.

The testimony taken before the Surrogate showed that from the time Mr. Moore settled in Williamsburgh till 1856, he was a resident of Williamsburgh. In 1860, he sold his house and furniture and purchased a plantation in Florida, and made preparations for a permanent residence, and did permanently reside there until his death in February, 1857. It was shown that after bis removal South, he expressed in his letters the intention of making that his home, and never expected to return. Upon this the Surrogate bases his decision.
